(a) Market value is the current market [rice of a bond excluding accrued interest. Bonds pay interest every six months so accrued interest increases in the time between payments.

(b) Fair value is the current market price of a bond including accrued interest.

Our investment strategy is a "buy and hold strategy" so we do not typically sell a bond, instead holding it to maturity. At maturity, we receive the full face value of the bond, regardless of market price.

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from changes in interest rates, the county's investment policy limits its investments to maturities of less than 5 years.

Credit Risk. State law limits investments in commercial paper to issuances rated "A1" or "P1" or better and corporate bonds to issuances rated "A" or better by nationally recognized statistical rating organizations (NRSROs).

Custodial Credit Risk. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the county will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of July 31, 2025, less than 2.5% of the county's investments are in repurchase agreements.

Concentration of Credit Risk. The county limits the investment in any one issuer to less than 5% of the total pool, excluding U.S. Treasuries and bonds issued by U.S. Agencies. U.S. Treasuries represent 1.8% of the county's total investment pool. Of the total investment pool, 0% is invested in the Federal National Mortgage Association and 0.9% is invested in the Federal Home Loan Bank. No other single investment represents more than 5% of the total investment pool.

Certification: The Treasurer certifies that the portfolio complies with Arizona Revised Statutes and the Investment Policy.
